**History.**—Chartered April 30, 1888, and purchased all the concessions granted by the Mexican Government for a railroad from Vera Cruz to Amacuzac, and contracted with the concessionaire to build the lines necessary to complete existing links and to put the latter in repair. The concessions confer the privilege of operating the railroads for 99 years from Feb., 1888, after which the latter are to pass to the State, which will then recognize the claims on them to an amount of not exceeding \$10,000 per kilometer (about \$16,000 per mile) bearing interest at 6 p. c. per annum until paid off; the rolling stock to be paid for at a valuation. The road was opened to Vera Cruz from the City of Mexico on April 1, 1889.

In July, 1891, the company purchased the Matamoros Ry., extending from Los Arcos, Puebla, to Matamoros Izucar, 48 miles. The extension from Jojutla to Riente de Ixtla, 12 m., necessary to fulfill the obligations of the company under its concession, was completed Aug. 1, 1894. A subvention of \$160,000, payable by the Government in respect to the extension, has been received.

Interest due in 1893 and subsequently on the then 6 p. c. mtge. debenture stock was paid in cash only in part, and in 1896 a scheme for the reorganization of the debenture stocks was carried out, the company, for the purposes of the plan, being placed in temporary liquidation. An outline of the scheme of reorganization was published in the *MANUAL* for page 1510. This company has under construction a line from Cuautla to Atencingo, to connect the Morelos and Matamoros divisions, a distance of 39.25 miles.

On June 30, 1899, these amounted to £545,415 10s. 1d.

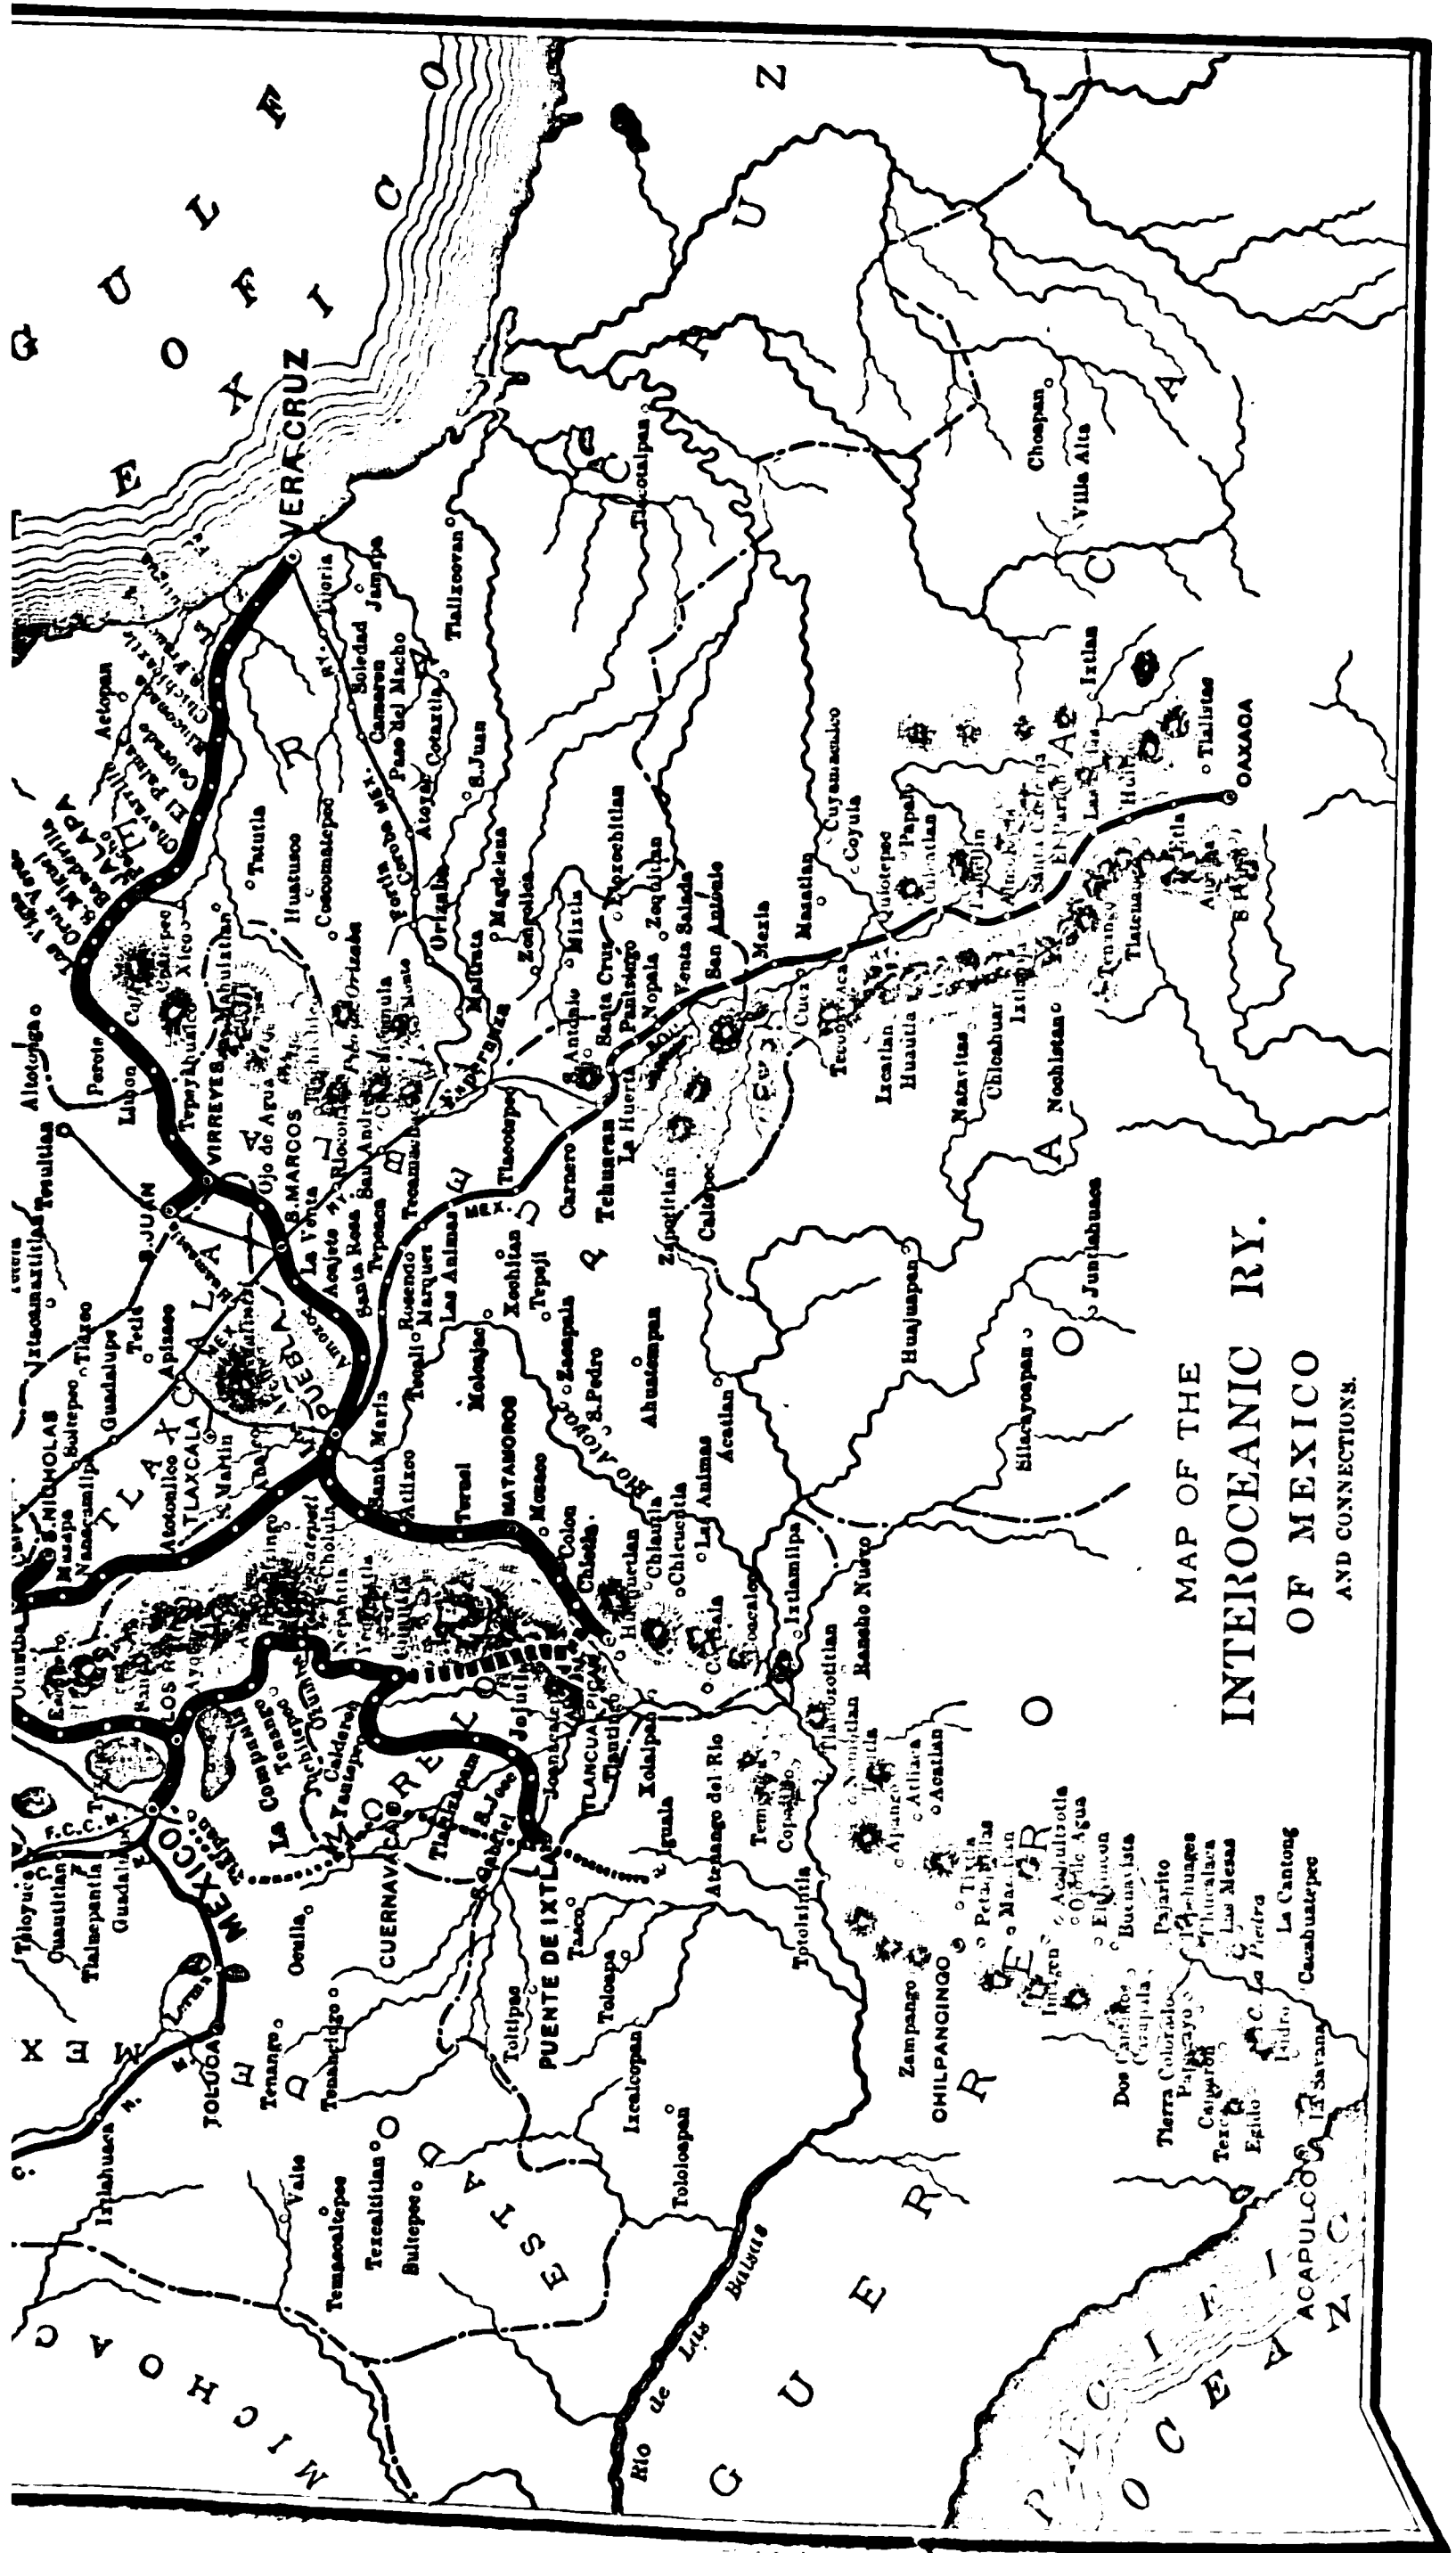

**PARTICULARS RESPECTING THE COMPANY'S SECURITIES.**

The ordinary shares are for £10, fully paid, and were issued to the vendors of the original contract and the contractors, and £200,000 in part payment of the Matamoros Ry.

The 7 p. c. cumulative preferred shares are for £10, fully paid. Of this amount, £300,000 were issued to the public in July, 1888, at par, and the remainder (£200,000) were issued to the vendors of the concession and the contractors.

The 5 p. c. prior lien debentures are for £50 and £100 each, of which £200,000 were issued in 1892, at 90 p. c., £100,000 in May, 1893, at 93 p. c., £60,000 in Feb., 1894, at 90 p. c., and £40,000 in 1897, at 95 p. c. Interest payable Jan. 1 and July 1, and principal due March 31, 1912; but the company reserved the right of repayment at par at any time after March 31, 1897, on six months' notice. A sum of 10 per centage paid as dividend on the preference shares is to be set aside each year as a reserve fund for the redemption of these bonds. These prior lien debentures are a 1st mtge. on the lines from Mexico City to Cruz, Mexico to Amacuzac, and branches to San Juan, San Nicholas and San Lazaro to the Custom House, Mexico City, and upon the company's equipment and net revenue. Provision has been made for the redemption of these bonds by the issue of £450,000 4 p. c. debenture stock.

The 4 p. c. debenture stock ranks next after the prior lien debentures on the whole of the company's undertaking. Interest is payable March 15 and Sept. 15, and the principal matures on Sept. 15, 1912. The company, however, having the option of redeeming the stock at par at any time on six months' notice in accordance with a scheme of arrangement agreed to in 1898, as follows: £452,000 to holders of the 4 p. c. mtge. debenture stock, in the proportion of 33 p. c.; £54,450 to holders of the Matamoros Ry. 4 p. c. mtge. debenture stock, in the proportion of 33 p. c.; and £40,550 to holders of the Matamoros debenture stock, in the proportion of 33 p. c.

holders of 4 p. c. debenture stock in issue. The stock is a first charge (secured by deed of mortgage registered in Mexico in favor of the National Safe Deposit Company, as trustee) upon the whole of the company's undertaking, including the Matamoros Railway, subject only to the existing lien of the 4 p. c. prior lien debentures.

The 7 p. c. "A" debenture stock ranks next after the 4 p. c. debenture stock. Interest is payable if earned, and is non-cumulative until for five consecutive years the revenue shall have been sufficient to provide the full interest on this stock and on the "B" debenture stock. The stock is to be redeemed on Sept. 15, 1950, with power to the company to pay it off at any time on six months' notice at 110 p. c. The stock was issued in 1896 in part conversion of pre-existing 6 p. c. mortgage debenture stock, 6 p. c. Matamoros debenture stock, and in redemption of deferred interest warrants issued for part interest on the pre-existing debenture stock and Matamoros debenture stock. (See statement of 4 p. c. debenture stock above.)

The 7 p. c. "B" debenture stock ranks next after the "A" debenture stock. The stock is to be redeemed on Sept. 15, 1950, with power to the company to pay it off at any time on six months' notice at 120 p. c. This stock was issued in 1896 in part conversion of the 6 p. c. mortgage debenture stock and Matamoros debenture stock.

**History.**—Incorporated in Massachusetts Feb. 25, 1880, and in the same year purchased the Guanajuato Ry. Co. 60 kilometers of narrow-gauge railway, which was wide incorporated into the same line. The entire main line was completed March 8, 1884, and opened April 10, 1884. For progress of construction, see MANUALS for 1893 and 1894. The Parral Extension, Jimenez to Parral, 54.60 miles in length, and the Mexico City Belt Line, 5.95 miles, were added to the operating mileage Jan. 1, 1899, making a total of 2,016.1 miles in 1899, compared with 1,955.66 miles in 1898, an increase of 60.55 miles, or 3.1 per cent.

The Zamora Extension from Yurecuaro to Chavinda, a distance of 38.14 miles, was completed during the past year, but was not added to the operating mileage until Jan. 1, 1900. Twenty-five additional miles on the various extensions were completed on April 1, 1900, and it is expected that further additions, to the total of 115 miles, will be added before Jan. 1, 1901.

**Subsidies.**—The company acquired a subsidy of about \$15,200 per mile (\$9,500 per kilometer) on the main line, the Tampico and the Guadalajara Divisions, the subsidy being payable from customs receipts, and the company having the right to import free of duty all material required for construction and maintenance and operation of its lines for 15 years, and being exempted from taxes till the expiration of 99 years after completion of all the lines; also the right to construct and operate its railway and telegraph lines for 99 years. It also has small subsidies from the State Governments of San Luis Potosi and Guanajuato. The Government of Mexico, on June 1, 1885, suspended the payment of its subsidy.

On June 30, 1886, an amendment was made to the company's concession by agreement with the Government of Mexico, under the authority of the Act of the Mexican Congress of Dec. 12, 1885. By the terms of this amendment, the subsidy certificates were to be amortized with the following percentages of the revenue receipts from the custom-houses, namely: July 1, 1886, to Jan. 1, 1887, 0.75 p. c.; Jan. 1, 1887, to July 1, 1887, 1.5 p. c.; July 1, 1887, to Jan. 1, 1888, 2 p. c.; Jan. 1, 1888, to July 1, 1888, 3 p. c.; July 1, 1888, to Jan. 1, 1889, 4 p. c.; Jan. 1, 1889, to July 1, 1889, 5 p. c.; In the early part of the year 1890 negotiations were opened with the Mexican Government for the payment of all the subsidy due the company on all lines that had been constructed, and an agreement was made on June 30 whereby the company was credited with a net balance on all the subsidy which had been due of \$19,820,793.01 Mexican currency.

The company agreed to allow the Government a discount of 25 p. c., which, deducted from the \$19,820,793.01, previously specified as due the company, left the net amount due under the agreement as of July 1, 1890, \$14,865,594.76, Mexican currency.

The Government paid this amount to the company in four equal installments, the first on Dec. 31, 1890; the second Jan. 20, 1891; the third Feb. 20, 1891; and the fourth March 20, 1891.

It was agreed by the Government that the company should continue the sale of subsidy certificates until Oct. 31, 1890, at which time all sales should cease, and that the amount which the company had sold from July 1 to Oct. 31, 1890, inclusive, should be deducted from the amount due, which the Government had to pay on March 20, 1891.

With the proceeds of the final payment the trustees bought from time to time, under the terms of the consolidated mortgage, as an investment, \$5,597,000 of the priority bonds of the company; the balance of the issue of \$7,000,000 of said bonds then outstanding, \$1,403,000, were called for payment and cancelled April 10, 1891.

At the time the settlement was made with the Government, \$6,122,646.37 of the proceeds were invested in priority mtge. 5 p. c. bonds to the par value of \$5,597,000. This investment by the trustee for the same purpose as the subsidy trust fund, amount stated above, to \$2,121,913.65, in addition to which is the \$225,000 referred to above as repayable to the trust fund, so that the security at the end of 1890 for payment of interest on the consol. mtge. bonds amounted to \$8,469,560.02 in addition to the earnings.

## Description of funded debt, Dec. 31, 1899 :

Priority Consol. Mtge. 5 p. c. 50-yr. \$ and £ gold bonds, dated July 1, 1889, due Jan. 1, 1939, Jan. and July, in Boston and London. These bonds are coupon, with privilege of registration, redeemable at 110 p. c. They are secured by a deposit with the Boston Safe Deposit and Trust Co. of 1st mtge. 4 p. c. bonds, by pledge of about \$20,000,000 (Mexican money) subsidy, to which the company is entitled on account of its railway construction; and are further secured by a consol. mtge. on the real other property of the company. The remainder (\$1,000,000) of the authorized issue can be used only for the purchase of additional rolling stock. These bonds have been paid and cancelled or purchased for at the Subsidy Trust Fund, as shown before in the statement of that fund.

Consol. Mtge. 4 p. c. 30-yr. \$1,000 gold bonds, coupon, with privilege of registration, due July 1, 1929, interest Jan. and July, in Boston, Mass. These bonds are authorized at the rate of \$32,000 per mile, and issued at par to holders of 1st mtge. assented 4 p. c. bonds, who also received, upon exchange, \$30 of consol. income bonds. They are secured on same terms as the priority mtge. bonds.

First Consol. Income 3 p. c. 50-yr. \$1,000 coupon gold bonds, due Jan. 1, 1939, interest (non-cum) payable annually, July 10, if earned. These bonds were authorized at the rate of \$9,000 per mile, and issued to holders of 1st mtge. assented 4 p. c. bonds as a bonus of 30 p. c. on their holdings in consideration of their surrender of the right to additional interest to which they were entitled. The interest on these bonds must be satisfied before any interest can be paid on the 2d consol. income bonds. In 1890, 1891, and 1892 full rate of interest was paid; in 1893, 1894, 1895, 1896, 1897, 1898, and 1899 there was no interest paid.

Second Consol. Income 3 p. c. 50-yr. \$1,000 coupon bonds, due July 10, 1929, but power reserved to the company to pay off the issue on or before July 10, 1929, at 50 p. c. Interest annually, July 10.

ing paid. These bonds were authorized at the rate of \$6,400 per mile and were issued at par to income bonds. They are redeemable at any time prior to July 10, 1929, at 50 p. c. U. S. current incomes have preference over these bonds in payment of interest.

Interest income bonds are for \$1,000 each, ranking on the income of each year for 3 p. c. interest. They mature July 1, 1911, but may be converted into ordinary shares at par. No interest is paid on these bonds until the amount outstanding of the old income bonds not converted under the scheme of 1889. Equipment and collateral gold bonds are for \$1,000 each; are dated April 1, 1897, due April 1, 1917; are for 5 p. c. per annum, payable April and Oct., at the office of the Old Colony Trust Co., Boston, Mass., or at the office of Glyn, Mills, Currie & Co., London, Eng.; bonds carry privilege of registration, and are held at the office of the trustee, Old Colony Trust Co., Boston, Mass. Under date of April 1, 1897, an agreement was entered into with the Old Colony Trust Co., as trustee, for the acquisition of about \$1,000,000 worth of equipment, the cost of same to be covered by the issue of \$1,000,000 5 p. c. equipment and collateral gold bonds, the bonds to be secured by the equipment itself (which remains the property of Old Colony Trust Co. until the entire amount of bonds has been redeemed and cancelled) and also by a deposit of \$1,500,000, par value, of Mexican Central consol. mtge. 4 p. c. bonds.

The Ry. Co. pays to the trustee each year one-twentieth of the total amount of bonds issued, which sum is applied by the trustee to the purchase and cancellation of that amount of bonds. On each anniversary of the date of issue of equipment bonds, one-twentieth of the collateral bonds are released to the trustee. At the final redemption and cancellation of all the equipment bonds, the equipment becomes the property of the Ry. Co. The equipment acquired under this agreement is shown under "Rolling Stock" on the balance sheet. It consists of 40 locomotives, 710 box, 240 coal, and 25 caboose cars.

On Dec. 27, 1900, there were issued and listed on the New York Stock Exchange \$1,000,000 5 p. c. 2d series collateral gold coupon bonds of 1919 of \$1,000 each, interest April 1 and Oct. 1, at the office of the Old Colony Trust Co., Boston, Mass., trustee, or at the office of Glyn, Mills, Currie & Co., London, Eng. These bonds are secured on 45 locomotives, 8 first class and 8 third class passenger cars, 350 box, 100 stock, 100 coal, and 30 caboose cars (which remain the property of the Old Colony Trust Co. until the entire amount of bonds has been redeemed and cancelled), and also by deposit with the trustee of \$500,000 par value of Mexican Central consol. mtge. 4 p. c. bonds. The Ry. Co. will pay yearly to the trustee one-twentieth of the total amount of bonds issued, which sum is applied by the trustee to the purchase and cancellation of that amount.

**Tampico Harbor Co.** (owned by the Mexican Central Ry. Co.).—Organized for the purpose of improving the harbor of Tampico. To improve a concession was granted by the Mexican Government. Work was begun March 13, 1892, and completed in 1892. Under the concession the company is entitled to a subsidy of \$3,000,000 per annum 6 p. c. bonds, of which \$2,790,000 was received. These \$2,790,000 of subsidy were sold in 1897 and 1898, and the proceeds were held in the treasury of the Mexican Central Ry. Co. The net cost of the works amounted, Dec. 31, 1900, to \$3,122,176, all of which has been advanced

by the Mexican Central Ry. Co. On Jan. 1, 1894, the Tampico Harbor Co. mortgaged its property to the Boston Safe Deposit and Trust Co., trustee, and issued under that mortgage to the Mex. Cent. Ry. Co. 5 p. c. bonds in payment of the advances made by the M. C. Ry. Co. up to Dec. 31, 1893, which amounted to \$2,790,563.07, leaving balance due the railway company, Dec. 31, 1899, \$352,612.84. Simultaneously with the creation of the mortgage a lease of the Tampico Harbor Co.'s property was made to the M. C. Ry. Co. at a rental equal to interest and sinking fund on the mortgage bonds. The outstanding bonds of the Tampico Harbor Co. are held in the treasury of the Mexican Central Ry. Co.

The objects of the plan were: (1) To give a value to the arrears of coupons accrued upon the A bonds; (2) To accomplish a reduction of the rate of interest upon the prior lien bonds; and (3) to concentrate the voting power of the existing A and B bondholders, thereby retaining the control of the management of the road and securing united action on the part of the bondholders in any measure calculated to the benefit of the road.

**History.**—Incorp. Aug. 20, 1864, as the Imperial Mexican Ry. Co., Ltd. This company operated the Jalapa line (Jalapa to Vera Cruz) till Aug. 20, 1893, when the road was donated. The State gave a subvention to the concessionaire of \$560,000 a year, of \$420,000 was the property of the company for 25 years from Nov. 11, 1868. The Government agreed not to subsidize any other railway between Vera Cruz and Mexico for 6 years from Nov., 1868. When the net revenue of the company exceeds 8 p. c. per annum on ordinary stock, the Government may, in conjunction with the company, readjust the rate, etc. After providing for dividends of 8 p. c. per annum, 4 p. c. of the surplus goes to the concessionaire, and of the balance then remaining 4 p. c. goes to the directors as remuneration, and 4 p. c. to the reserve.

The extension from Ometusco to Pachuca was completed and opened Dec. 3, 1890. The concession (dated May 27, 1889) for this extension carries no subvention, and runs for 25 years, after which the Government may purchase the line at a price to be fixed by experts.

Concession granted Aug. 18, 1888, for a railroad from Maravatio through Zitcuaro, Tene Sultpec, Zacualapan and Tasco to Iguala. The concession was for 99 years and provided for a subvention of \$6,000 per kilometer. At the end of the concession the railway will revert to the government, subject to the amount of \$6,000 per kilometer, bearing interest at 6 p. c., the government to pay a fair price for rolling stock, etc. On Jan. 20, 1889, the Michoacan Ry. and Mining Co. was registered in London to a concession and also to acquire mines of silver and other metals in the State of Michoacan. The railroad completed from Maravatio to Ocampo, and branch to Angangueo, together about 56 kilometers, in 1891. The concession was superseded by a new one running from Aug. 29, 1893, on the same terms as regards subvention (subject to modifications involved by the government debt conversion scheme of 1894) as the old one, but the company was relieved of any obligation to extend the line beyond the town of Zitcuaro, of about 60 m. from Maravatio, and was given power to extend the line if so desired to Cuernavaca, or to any convenient point any railway going to the Pacific. By a further concession promulgated July 30, 1894, to build to Cuernavaca was relinquished, and authority obtained to build from Yurecuaro on the Mex. Ry., to Arrio, about 250 kilometers, with a subvention of \$6,000 per kilometer in 5 p. c. bonds of the Interior Debt on 190 kilometers of line so constructed. \* 1,482 6 p. c. gold sinking fund subsidy bonds of \$1,000 each, amounting to \$1,482,000, issued Nov. 1899, fall due Nov. 1, 1910.

To meet this bonded indebtedness, \$225,000 annually of the Colombian Government Subsidy was paid till March 27, 1908, the same to be applied by the company: First, to the payment of the interest, and second, as a cumulative sinking fund for the redemption of the principal; the bonds to be drawn yearly in September in amount equal to the then surplus of the subsidy sinking fund, the drawn bonds to be paid on Nov. 1 of each drawing, and thereby redeeming the whole issue in 1908.

† Of this amount \$916,000 will become due in 1902 and is secured by an equivalent amount of the company's new 4½ p. c. bonds as collateral; \$113,792.98 becomes due March 31, 1900; \$22,824.90 on June 30, 1900 and \$127,307.08 on Dec. 31, 1900. The total may be reduced in the meantime at the option of the company by payments on account.

The 1st mtge. 4½ p. c. gold sinking fund bonds are dated Aug. 15, 1897, due Oct. 1, 1917, interest 4½ p. c. 1 and Oct. 1, at the office or agency of the company in New York, N. Y. The authorized amount is \$4,000,000 of which \$2,000,000 were issued and delivered to the company at the time of the execution of the mortgage. The remaining \$2,000,000 were reserved to be issued only for the purpose of the acquisition or construction of property, steamers, vessels, wharves, harbors, piers, railroads, branches, warehouses, grain elevators, lands, double tracking, terminal facilities and other property, and for betterments and improvements of the corporate property, and only in such amounts as the Board of Directors may, from time to time, by a three-fourths vote of the entire board, determine to be necessary for any of said purposes. The bonds include a provision that, in the event that any canal or water connection, connecting the water of the Atlantic and Pacific Oceans, shall be, during the life of the bonds, constructed and actually opened to commerce and the passage through the same of ocean-going vessels, from ocean to ocean, then, and upon the expiration of four months thereafter, and upon written notice to the railroad company and the trustees of the bonds, the entire principal sum of said bonds then outstanding shall forthwith become due and payable, anything in the said bonds or mortgage to the contrary notwithstanding. The bonds are redeemable at the option of the railroad company on any interest date after five years from their date, at 105 p. c. and accrued interest in the manner and upon the notice provided in the mortgage securing the same. The provisions of the sinking fund are to the effect that the company shall apply the sum of \$150,000 in gold each year to the purchase of such bonds in the market at a price not exceeding the principal and a premium of 5 p. c. upon the value thereof and the accrued interest, or to the drawing of such bonds annually by lot, at the principal value thereof and the accrued interest. A further issue of \$900,000 of the same bonds was authorized in order to provide as may be necessary for contract payments at maturity in 1902, earlier, at the company's option on account of indebtedness incurred in the construction of the La Boca Terminal. The railroad company in New Jersey cannot do electric lighting directly, hence the formation of a subsidiary for this purpose called the Atlantic Coast Electric Light Co., authorized capital, \$500,000; issued, \$100,000. The deferred "B" shares, £2,500,000, were used in acquiring the interests in various undertakings. No dividend has yet been paid on either class of shares.

The Debenture Bonds were created in July, 1891, under a plan for the rearrangement of the mortgage debt of the company, and were issued to holders of old 1st and 2d debentures on the following basis of exchange: For £100 old 1st debentures and overdue coupons, £50 of new "A" debentures, £70 of "B" debentures, and £1 10s. in cash; for £100 old 2d debentures and overdue coupons, £130 of new debentures. Default was made in payment of all 1st and 2d debenture coupons due Oct. and Dec. 1885 respectively, and a receiver appointed in Sept., 1887, under whose management the road was operated until April 6, 1891, when the company again assumed control.

The "A" Debentures are of the denominations of £50 and £100 each, and are a first lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Nov. 1, 1890, payable May 1 and Nov. 1. These bonds may be called for redemption at 115 at any time after 1910, upon six months' notice. The interest is to be paid out of the net profits from the date of first interest payment should the profits be insufficient to pay such interest, when accrued, it shall be cumulative. The full dividend has been paid to date.

The "B" Debentures are of the denominations of £20, £50 and £100 each, and are a second lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Nov. 1, 1890, payable May 1 and Nov. 1. These bonds, like the "A" debentures, may be redeemed at 115 after 1910, upon six months' notice. Interest is payable out of the net profits after payment of interest on "A" debentures but is not cumulative. Should there be any deficiency in the payment of the full amount of interest for first half-year, such deficiency shall be payable out of the profits of the second half, provided that the profits of the full year are sufficient for the purpose. In March, 1895, 17s. 6d. p. c.; in March, 1896, £1 p. c.; in Feb., 1897, £2 10s. p. c.; in Feb., 1898, £2 15s.; in Feb., 1899, £4 2s. 6d.; in Jan., 1900, £5 were paid.

\* Includes the entire capital stock of the New York Gas and Electric Light, Heat and Power Co., to be redeemed by the increase of stock.

On March 9, 1900, the stockholders of this company authorized an increase of the capital \$15,517,200 from \$39,078,000, making the total amount authorized \$54,595,200. The additional stock was for the purpose of retiring debenture bonds of this company to the amount of \$36,000,000, which was under date of Jan. 2, 1900, in payment of an equal amount of the capital stock (being all thereof) of New York Gas and Electric Light, Heat and Power Co. By their terms, such debentures were made redeemable at the option of the company at any time within six months from their date, at the price of \$22 for \$20 and par for the debentures. The examination of the business of the New York Gas and Electric Light and Power Co. showed that the net earnings of that company were on a basis of 4 p. c. upon its stock, or about 9 p. c. upon the stock of the Consolidated Gas Co. of New York, which it is proposed to pay in payment therefor. The stock of the New York Gas and Electric Light, Heat and Power Co. is subject to the order of the Board of Trustees of this company.

On July 16, 1900, the stockholders voted to increase the capital stock by \$25,404,800 to \$80,000,000 for the purpose of acquiring the stocks, bonds, and other obligations of other gas or electric light companies, providing for the redemption or payment of the company's debentures, debenture scrip, or other indebtedness, or for additional improvements, or for such other purposes as the stockholders may determine to be in the interest of the company. Of the new stock, about \$4,033,000 will be used to retire the debentures issuable for the stock of Amsterdam Gas Co.; \$13,648,800, being 25 p. c. of the outstanding issue, will be offered to stockholders, and the remainder (\$7,718,000) will be reserved for other purposes.

**Electric Vehicle Co. (The).**—Incorp. in 1897 under the laws of New Jersey. The first step in organization was the union of patents owned by the Pope Manufacturing Co. for the construction of automobiles, and of those owned by the Electric Storage Battery Co. for the manufacture of storage batteries as applicable to automobiles. This was brought about by the organization of the Columbia Automobile Co. in which the Pope Manufacturing Co. and the Electric Storage Battery Co. became half owners respectively.

The Columbia Automobile Co. then in its turn united all the patents owned by it with those owned by the Electric Vehicle Co., through the instrumentality of a new corporation entitled the "Columbia and Electric Vehicle Co.," reserving only its right to the manufacture of storage batteries, agreeing, however, to furnish these batteries as required by the Columbia and Electric Vehicle Co. at a price fixed at 20 p. c. of the actual cost of production. The stock of the Columbia and Electric Vehicle Co. was taken in equal proportion by the Electric Vehicle Co. and the Columbia Automobile Co. respectively. The Columbia and Electric Vehicle Co. acquired immediately, by purchase, the extensive plant of the Columbia Automobile Co. in Hartford, and shortly thereafter purchased the entire capital stock of the New Haven Carriage Co., and acquired control of that company's important plant at New Haven. About the same time the Electric Vehicle Co. purchased substantially the entire capital stock of the Siemens & Halske Electric Co. of America, in purpose of utilizing the great facilities in Chicago of that concern for the manufacture of the electric motor other than storage batteries required for the construction of electric vehicles.

Co., and in addition, a lien on all the company's canals, railroads and coal lands. In making this mortgage, dated June 25, 1898, it was thought advisable to anticipate other obligations falling due during the few years, and to provide funds for future extensions and improvements as the necessity for the same might arise.

Under the provisions of the mortgage, bonds to the amount of \$2,085,000 were certified by the company and delivered to the company as of July 1, 1898. On Sept. 1, 1904, bonds can be issued to the amount of \$1,415,000, the proceeds of which are to be used in purchasing the outstanding capital stock of the Lehigh Valley RR. Bonds to the amount of \$1,000,000 are now in the treasury of the company.

Under the lease by which this company came into possession of the property of the Delaware and Lehigh Canal Co., it was provided that the Lehigh Coal and Navigation Co. should, by purchase or otherwise, make provision for the bonds of the Delaware Division Canal Co. at or before their maturity. The balance of the bonds outstanding is \$800,000. The bonds matured July 1, 1898, and were extended to Jan. 1, 1905, with interest reduced to 4 p. c. per annum. Prior to their maturity this company had acquired the property of the bonds by operation of the sinking fund, and purchased the remaining \$480,000 on July 1, 1898.

In the latter part of 1891, with the consent of the Land Co., a portion of the lands was sublet to Delaware and Hudson Canal Co., which guarantees a minimum of about 20,625 tons at 50 cents, and a portion to the Hillside Coal and Iron Co., which guarantees a minimum of 60,000 tons at 30 cents, these guarantees being applicable on that of the original lessees. On May 31, 1892, the company secured the contract for the public lighting of the city of Cincinnati for 11 years. This contract also carries with it a franchise for commercial lighting for the city of 20 years, which covers the limits of the city as now fixed or as they may be extended during the term of the franchise. The total number of lamps to be installed within the present city limits will be 3,500, and this will be increased by the incorporation of several populous suburban districts. For legal reasons the Alabama Steel and Ship Building Co. was formed as a separate corporate stockholders of this company subscribing for its bonds and preferred stock individually, and this company subscribing for all of its common stock, the amount of which is only \$30,000. The interest of this company in that property does not therefore adequately appear in the foregoing balance sheet, being only shown by the item \$50,000 under the caption of "Stocks and Bonds of Other Companies." The following is this company's balance sheet of assets and liabilities as it would appear if the assets and liabilities of steel works were incorporated with its figures:

Since Dec. 31, 1898, these properties have been sold for cash and transferred to the Virginia Iron, Coal & Coke Co. The company is still largely interested in coal mines and in a number of land and improvement companies along the line of the Norfolk and Western Railroad.

The \$4,000,000 common stock is only 50 p. c. paid, \$2,000,000 only having been called. Arrangements have been made for the exchange of the stock of the Virginia Development Co. for stock in a new corporation called the Consolidated Coal, Iron and Land Co. On Dec. 31, 1899, the latter company had 100,000 shares of preferred stock, and 39,071 of common stock of the Virginia Development Co. A very large part of the V. Co.'s stock has already been transferred to this company, and on the completion of the transaction the Consolidated Co. will acquire all the property of the Virginia Co. The principal object in making this transfer is to relieve the common stockholders of the Va. Co. of the liability of 50 p. c. uncalled. The preferred and common stockholders in the new company will be the same as those of the Virginia Development Co. and the common stock will be issued full-paid and the total issue of common stock, \$2,000,000 instead of \$4,000,000—the common stockholders of the Va. Co. receiving one full-paid share of common stock of the Consolidated Coal, Iron and Land Co. for two shares of common stock of the Virginia Development Co. 50 p. c. paid.
